

ORIGINALITY AND DIVERSITY SYNCHRONIZED TO SHAPE AN OUTSTANDING FUTURE AHEAD

Aiming high, discovering new ways and innovating learning processes, this is what Cohen is all about. This universal school offers the most advanced curriculum to smoothen your child's future path. At CIS, we plant the seed of knowledge in students so that they can bloom fresh and bright. Every parent dreams of getting their child admitted in well-equipped academic environment and we leave no stone unturned to fulfill their wish. We enrich young minds by focusing on academic excellence and opening doors to extend learning beyond classroom. CIS delivers a holistic education where children are inspired to widen their horizon by exploring their passion.

Self-evaluation is an important part of an individual's life. CIS sets forth challenges for the students to seek for capability by delving deep into inner self, encouraging them to become life-long learners. Learning becomes easy with the combination of conventional teaching techniques and advanced discoveries in academics. CIS emphasizes into both of these to benefit the children through a chain of learning from pre-school to high school. They are groomed in such a way that their physical, mental and spiritual being gets fulfilled with the right inputs. With hopeful eyes and zeal to conquer the world, the kids at CIS get the training to be the leaders of tomorrow.

**EDUCATION
HAS THE POWER
TO GO AGAINST ALL
ODDS, LEAD THE
PATH OF TRUTH &
AMEND THE WORLD**

VISION

We envisage CIS as one of those unique international schools that will give education a new name by breaking the typical academic characteristics and moulding the future of students by optimizing educational opportunities as the cornerstone of learning procedure.

INNOVATING TECHNIQUES FOR
TAKING EDUCATION TO A
NEW PLATFORM

MISSION

CIS is committed to motivate, encourage and inculcate every student with the mantra of know, learn and outshine the world. Our motto is 'Excellence Through Harmony'. With a promise to pave the way for an enlightened tomorrow, every student is nourished with the right mix of knowledge.

KNOW, LEARN AND OUTSHINE
FOR A BRIGHTER TOMORROW

FROM CHAIRPERSON'S DESK

CIS is a unique school, which is a temple of learning and a stepping stone to every kid's dreams. Our first step paves the road to our destination and hence, beginnings do matter a lot. My humble beginning with a passion to learn, courage to face obstacles, 'never say never' attitude laid the foundation for my life's principles and my vision. As a kid, I always felt the need to have an educational institution that not only offers world-class academics, but also helps students pursue their dreams, whether it is in academics or art or sports or management. CIS is the brainchild of my vision and the relentless efforts of like-minded people. I urge you all to pay a visit to our lovely campus. Our school will leave no stone unturned to groom your wards and shape their future well. We strive to provide quality education with equal importance to core human values. Our aim is to see our students grow up as self-reliant, confident and content individuals.

JYOTI RANJAN TRIPATHY

"The woods are lovely, dark and deep,
But I have promises to keep,
And miles to go before I sleep,
And miles to go before I sleep."
- Robert Frost

Maths Club 'Y-axis' makes calculation and numbers more interesting for the students. The idea of this club is to involve the buds of CIS in Vedic math sessions and inculcate them with the nitty-gritty of arithmetic.

Science Club 'h-cross' inspires the pupils of CIS to be aware of all branches of science and take their first step in learning the basic concept. Interactive science sessions and workshops by scientists and research scholars satisfy the quest of the curious little minds and motivate them towards scientific expedition.

Music Club 'Raaga' is aimed at stirring the musical sense of the kids at CIS. Both vocal and instrumental skills are reared on a weekly basis with the intention of making a famous school band in the coming days.

Literary Club 'Stanza' encourages CIS students for book reading sessions on a weekly basis. Reading enlightens mind, therefore the idea behind this club is to find happiness and gain insight from books. Nothing could be better than book reading to improve vocabulary and also nourishing the power of imagination.

Dance Club 'Rhythm' allows students to put on their dancing shoes and set their soul free. They are trained for both classical and western dance styles under eminent dance teachers and choreographers.

Sports Club 'Arena' fosters the athletic skills of the students at CIS. The vast sports ground and the refreshing swimming pool is a boon for the students when it comes to practicing physical activities. Number of indoor and outdoor games such as tennis, chess, football, hockey, badminton provides the kids with opportunities to remain hale and hearty.

Oratory Club 'Rhetoric' is aimed at getting rid of Glossophobia or the fear of public speaking from children. Weekly debates, JAM (Just-a-Minute) sessions, elocution, extempore at CIS cultivates the art of effective and persuasive speaking.

Quiz Club 'Link' makes sure that every child at CIS possesses strong intellect and general awareness to be one step ahead always. Biweekly quiz contests and maintaining question bank helps the learners to be at par with the worldly happenings.

Eco Club 'Green' believes in the motto 'each one, plant one'. This club emphasizes on raising consciousness among the kids about the environmental issue. The budding leaders of tomorrow are motivated to take one small step forward to make one giant change in the future.

SANS PAREIL OF THE EDUCATIONAL ERA

A young girl with dark hair, wearing a white long-sleeved dress with small dark dots, stands in a dark, futuristic room. She is looking up and reaching her right hand towards a glowing, complex, atomic-like structure made of bright yellow and white lines. The room has a blue and purple color scheme with various pieces of equipment and screens in the background, creating a high-tech, educational atmosphere.

COHEN APP- A MISSION TO BRING REFORMATION

The exclusive Cohen App, compatible for both iOS and Android, is designed by our IT professionals especially for the students. Through this hi-tech app, not only the students can give online exams throughout the year but also the parents can access it for monitoring the progress of their children regularly. It is created in a way to involve both students and parents in sharing feedbacks and the students can clear their doubts even in the absence of the teacher through this futuristic app. Messages and video sharing is allowed in this innovative app.

DYNAMIC AND INTRIGUING STEPS TO MAKE A DIFFERENCE TO THE WORLD

CIS - Setting a Benchmark

If you want your child to grow up in the lap of Mother Nature, then there's no other place better than CIS. Amidst lush greenery, surrounded by the mighty mountains, the kids will even get a glimpse of the dazzling sun. This global school with a spectacular view of countryside is affiliated to the Central Board of Secondary Education (CBSE) with the curriculum designed specifically to support future prospective of students. We believe in providing the best quality of learning by integrating technology with classroom lessons for an all-round development of the students. Spread across 10 acres of open space, CIS encourages students for extra-curricular activities such as music, art, dance, tennis, swimming and others. CIS puts special efforts to develop children physically, mentally and spiritually by building a brighter future ahead.

- Session begins from 2020
- From Nursery to Grade XII
- State-of-the-art facilities
- Holistic learning environment

CREATIVE SPARK INSTILLED
INTO CHILDREN'S MIND FOR
BETTER LEARNING EXPERIENCE

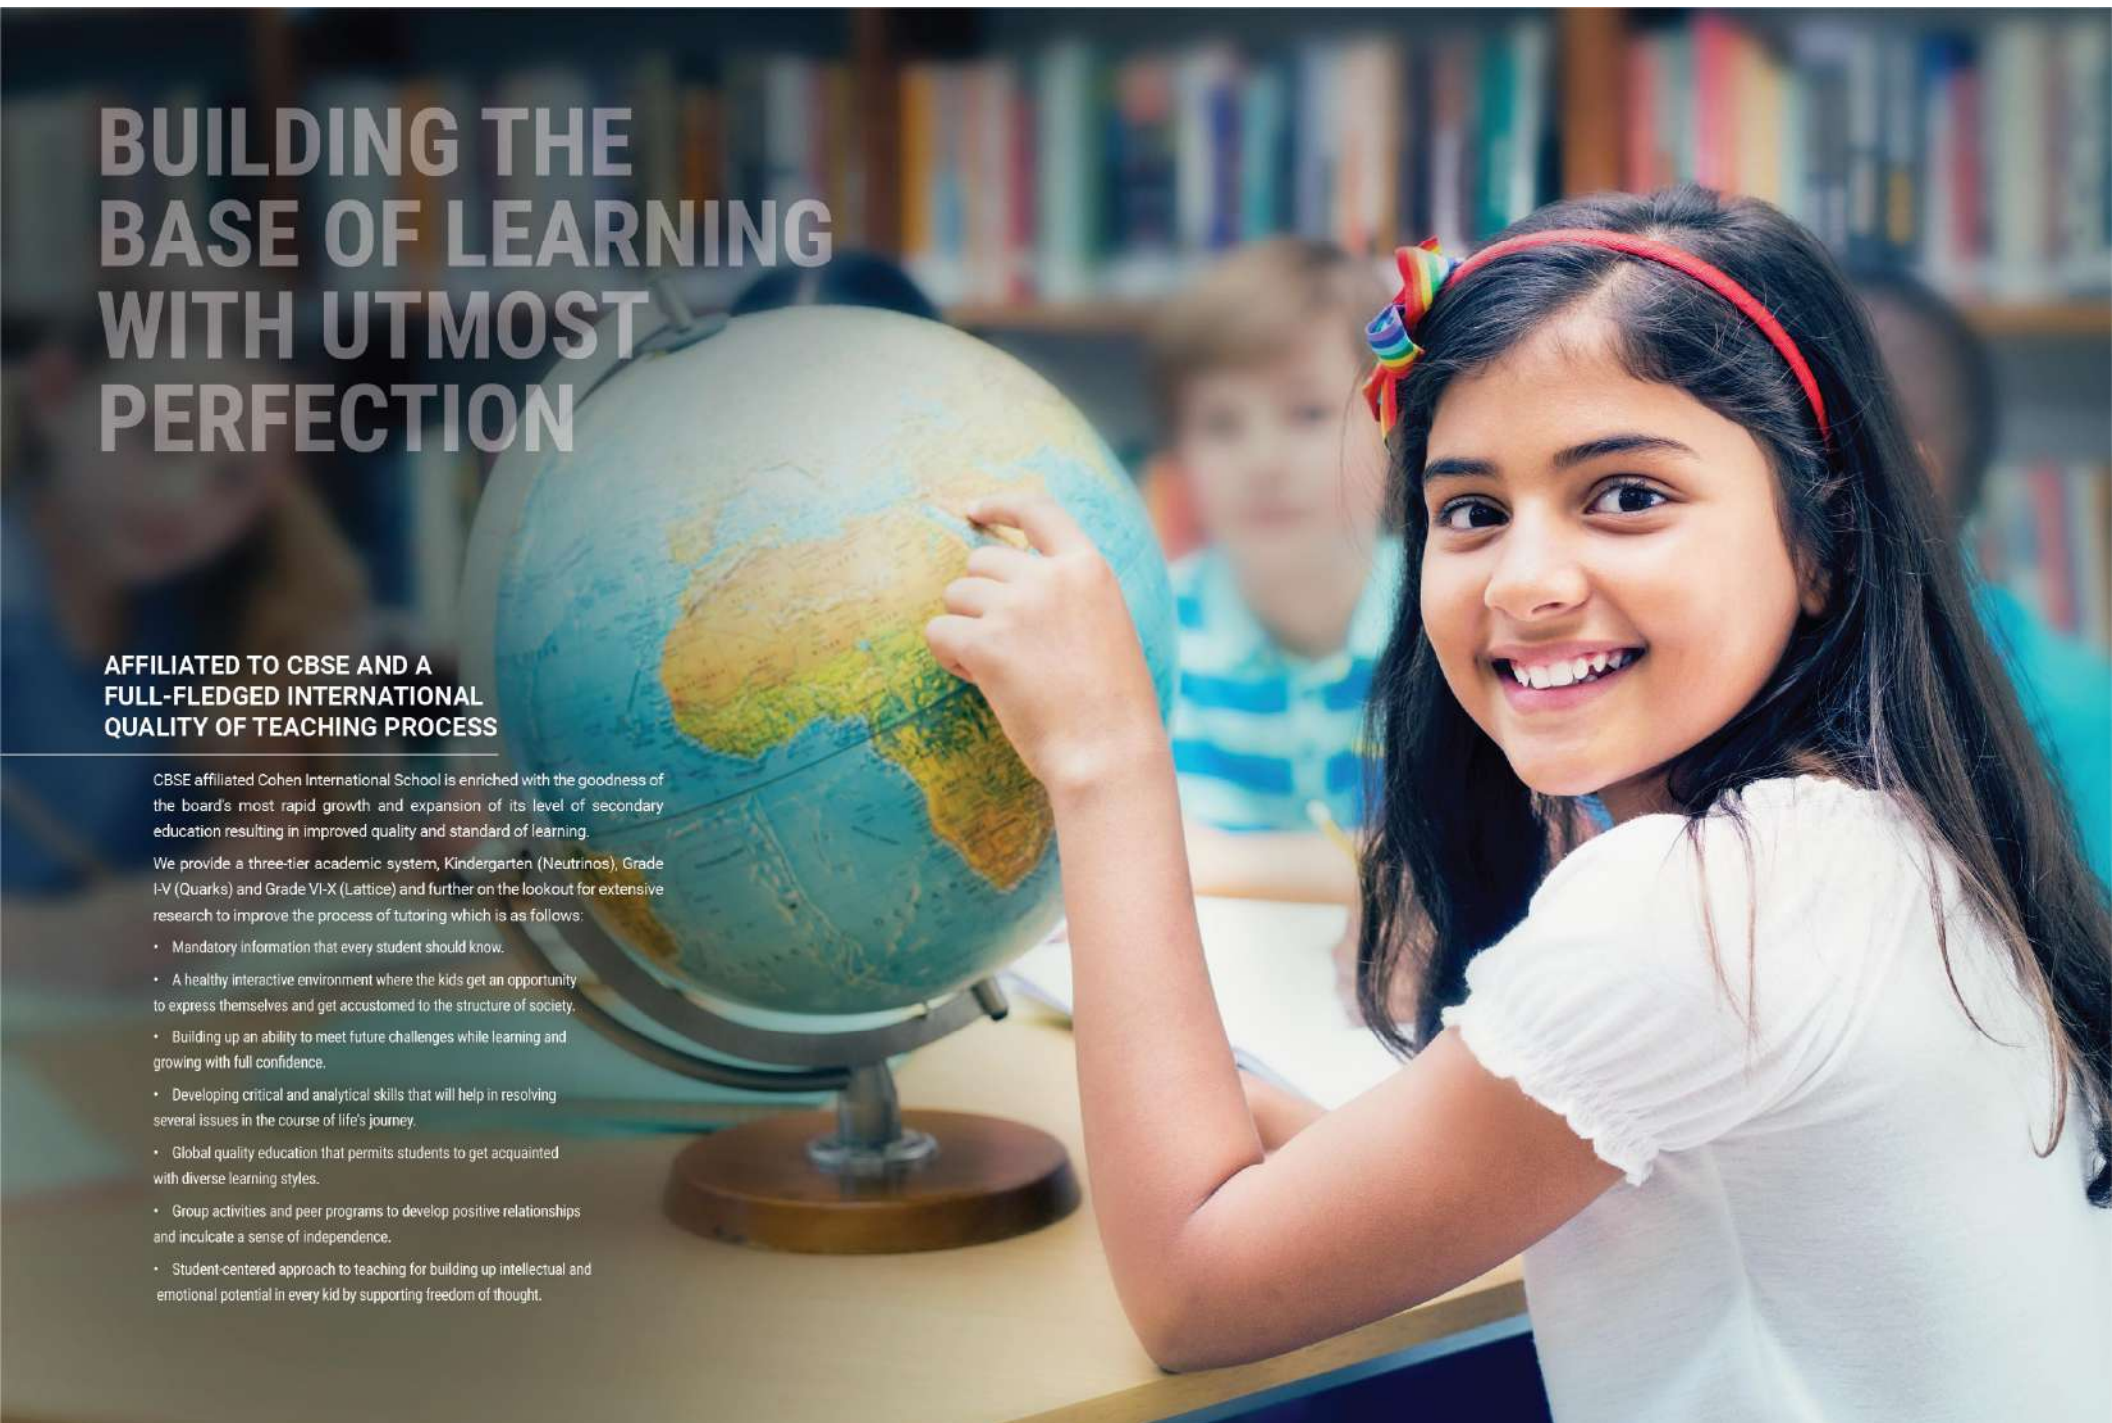

BUILDING THE BASE OF LEARNING WITH UTMOST PERFECTION

AFFILIATED TO CBSE AND A FULL-FLEDGED INTERNATIONAL QUALITY OF TEACHING PROCESS

CBSE affiliated Cohen International School is enriched with the goodness of the board's most rapid growth and expansion of its level of secondary education resulting in improved quality and standard of learning.

We provide a three-tier academic system, Kindergarten (Neutrinos), Grade I-V (Quarks) and Grade VI-X (Lattice) and further on the lookout for extensive research to improve the process of tutoring which is as follows:

- Mandatory information that every student should know.
- A healthy interactive environment where the kids get an opportunity to express themselves and get accustomed to the structure of society.
- Building up an ability to meet future challenges while learning and growing with full confidence.
- Developing critical and analytical skills that will help in resolving several issues in the course of life's journey.
- Global quality education that permits students to get acquainted with diverse learning styles.
- Group activities and peer programs to develop positive relationships and inculcate a sense of independence.
- Student-centered approach to teaching for building up intellectual and emotional potential in every kid by supporting freedom of thought.

CONNECTING THE DOTS
TO DESIGN A NEW CULT
OF PEDAGOGY

A young girl with dark hair and a joyful expression is playing with colorful building blocks. She is holding a yellow giraffe-shaped block on top of a blue rectangular block. In the foreground, there is a stack of various colored blocks (yellow, blue, red, white). The background is a bright, indoor setting with a white wall and a small potted plant with yellow flowers in the top left corner.

SPEARHEADING UNPARALLELED STANDARDS OF EARLY CHILDHOOD EDUCATION

NEUTRINOS (KINDERGARTEN) A TREAD WITH THE TODDLERS

We have a dedicated team of educators engrossed in shaping the torchbearers of tomorrow. The kindergarten curriculum at CIS ensures smooth conversion to formal schooling with progressive learning practices. Through age-appropriate activities, kids get the scope to hone their listening, speaking, reading and writing skills. Our fundamental ethos of child-centric environment enables them to recognize their unique learning pattern.

QUARKS (GRADE I TO V) THE STEPPING STONE

Primary School is that stage in a child's life when he starts to explore the world outside of his homely environment, meets new people and starts to enjoy a new chapter of life. At this time, the young and fresh minds get introduced to early days of education. Therefore, CIS focuses on innovative learning methods, skill development practices and entertaining activities to make these early formative years more interesting. The sole objective is to provide proper knowledge support in the growing years of children. We make the toddlers go through different set of learning skills, calculation skills, language skills and communication skills. These skills help in their mental growth and development which are carried out under strict vigilance of the teachers. It is ensured that the kids practice these activities with great enthusiasm.

THE RIGHT FOUNDATION FOR REMARKABLE FUTURE PROGRESS

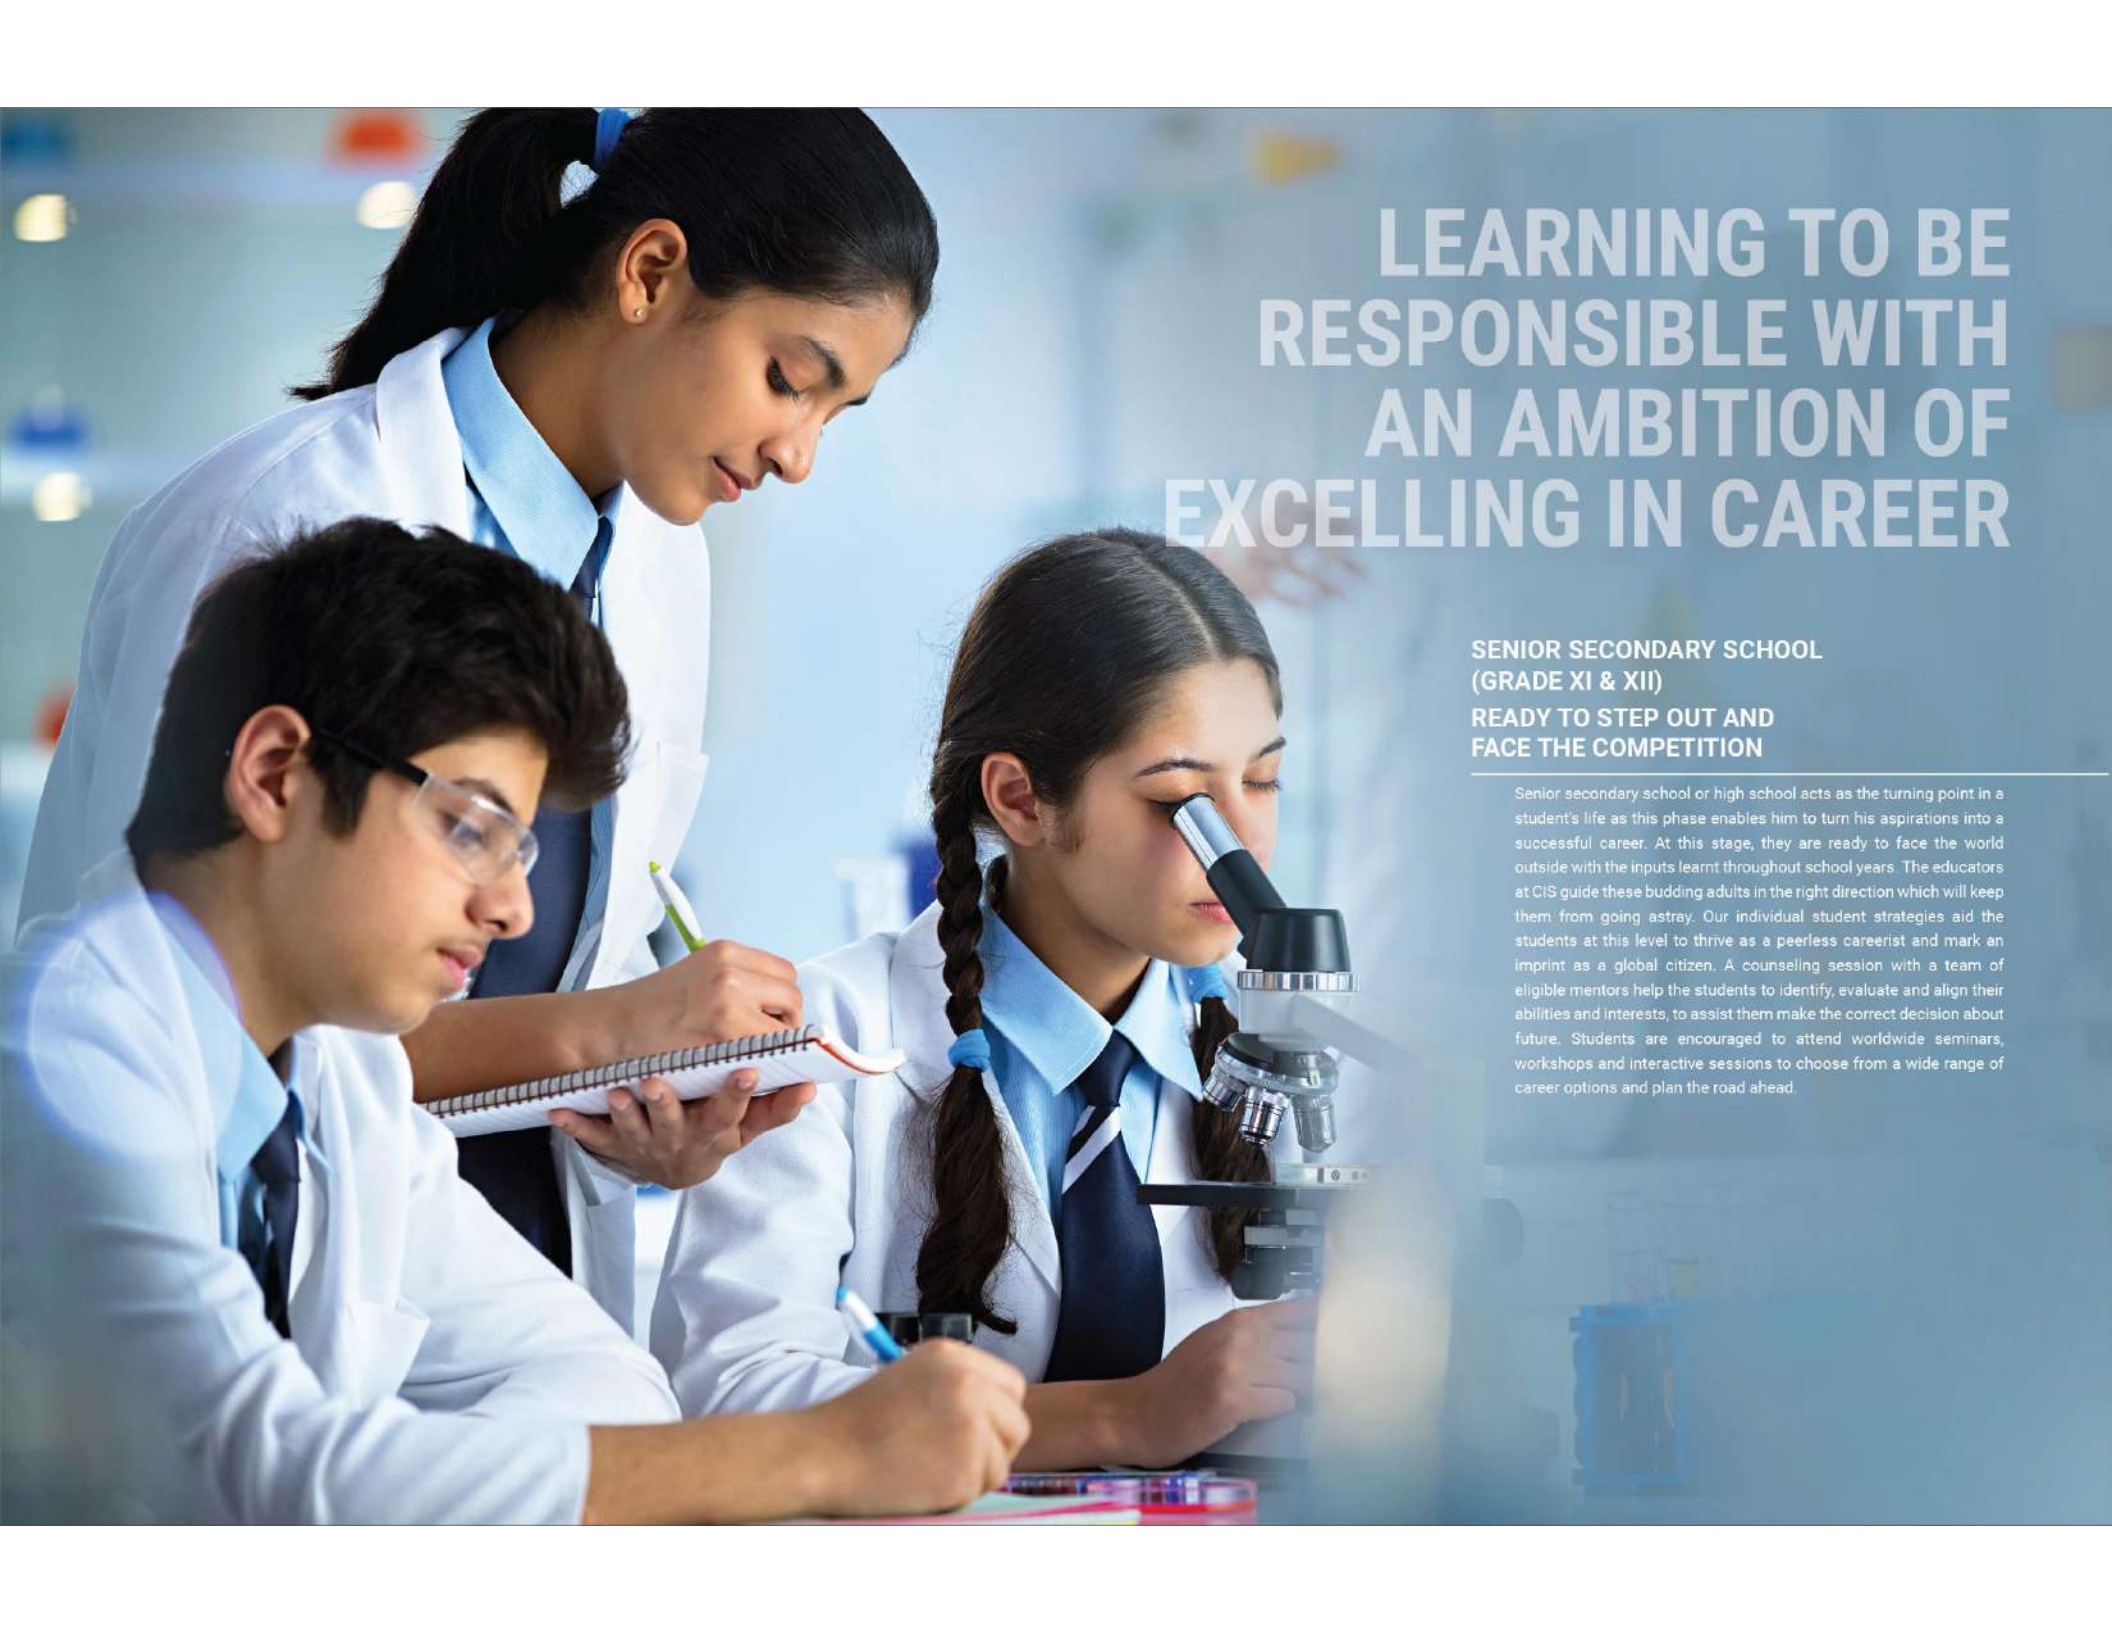

EVOLVING TO ACHIEVE THE HIGHEST POTENTIAL

LATTICE (GRADE VI TO X)

ADAPTING TO THE TRANSFORMATION WITH A PROGRESSIVE MIND

The phase of secondary school or middle school plays a significant role in the decision making and rational thinking ability of the students. To foster these qualities in an optimal manner, all the aspects associated with the students are incorporated for a complete understanding. The students get the guidance of well-trained professionals while learning about multimedia content and they get the scope to interact with prominent academicians and experts in internal seminars and workshops. Several activities are organized for testing the intellectual skills in state-of-the-art infrastructure. Regular assessment is conducted for preparing them to cope with the rising competition in various fields of education. Overall personal development is taken care of along with vigorous academic performance to bring out the best in the student.

A photograph of three students in a science laboratory. A female student in the background, wearing a white lab coat and a blue tie, is looking down at a notebook held by a male student in the foreground. The male student is also wearing a white lab coat and a blue tie, and is looking at the notebook. A female student in the foreground, wearing a white lab coat and a blue tie, is looking through a microscope. The background is a blurred laboratory setting with various equipment and shelves.

LEARNING TO BE RESPONSIBLE WITH AN AMBITION OF EXCELLING IN CAREER

**SENIOR SECONDARY SCHOOL
(GRADE XI & XII)**

**READY TO STEP OUT AND
FACE THE COMPETITION**

Senior secondary school or high school acts as the turning point in a student's life as this phase enables him to turn his aspirations into a successful career. At this stage, they are ready to face the world outside with the inputs learnt throughout school years. The educators at CIS guide these budding adults in the right direction which will keep them from going astray. Our individual student strategies aid the students at this level to thrive as a peerless careerist and mark an imprint as a global citizen. A counseling session with a team of eligible mentors help the students to identify, evaluate and align their abilities and interests, to assist them make the correct decision about future. Students are encouraged to attend worldwide seminars, workshops and interactive sessions to choose from a wide range of career options and plan the road ahead.

TOMORROW'S LEADERS ARE PREPARED IN TODAY'S CLASSROOM

COHEN School Integrated Program (CSIP)

Launched in 2014, this program has become one of the most sought after courses for IIT/Medical aspirants as it reduces the stress of managing two places simultaneously, school & tuition. The entire process of coaching & preparation takes place in the school within the school timings. The results of the course have been very encouraging and bear testimony to COHEN's commitment towards giving the best possible guidance and learning environment to its students both in boards & competitive exams.

The School Integrated Program (SIP), an extension of the Founder's Classroom Course, follows the exact pedagogy and quality of facilities. Similar to Founder's Classroom Course, the two-year School Integrated Program (SIP) for IITJEE/MEDICAL 2022 comprises a thoroughly comprehensive package which combines all the three parts of COHEN's time-tested strategy that has been producing IITJEE/MEDICAL rankers for over 5 years.

COURSE STRUCTURE

Phase 1 covers the topics of Physics, Chemistry, Maths & Biology for Class XI. All the fundamental topics are covered in a lucid manner to ensure easy understanding of the concept. The entire NCERT is also taught along with these modules for complete CBSE preparation and the exam is conducted on inter-school basis.

Phase 2 covers the topics relevant for Class XII. Phase 1 topics are covered in detail along with the applicative and IITJEE/MEDICAL oriented question formats. The module also covers the Class XII CBSE topics so that the students can excel in their Board Exams as well.

The Final Step – COHEN's flagship revision module covers all the topics of Phase 1 and Phase 2 so that the students can revise all the important concepts, formula in the minimum possible time. It's the perfect tool to whet two-year long preparation. The SIP students get their performance analysis and relative ranking among all students enrolled in CSIP for IITJEE/MEDICAL 2022 Courses.

ADVANTAGES

- Reduces stress as the curriculum is synchronized.
- Saves time as the program is held during school hours.
- Travel / safety issues of children are addressed.
- Lessens financial burden on parents as the facility is available under one roof.

BE A POLYMATH WITH ROARING SUCCESS

SOCIAL SERVICES - LENDING A HELPING HAND

CIS infuses the students with strong social values so that they grow up to be responsible citizens that the planet needs. Climate change and financial instability are the most sensitive issues that demand awareness of the people, especially the youngsters. The pupils of CIS are motivated to bring a reformation by contributing towards betterment as per their potency.

EXTRA-CURRICULAR ACTIVITIES 360 DEGREE DEVELOPMENT OF HEALTH, MIND AND HEART

Early childhood research indicates that play is essential in a child's learning and development. Purposeful play aids in the construction of learning, sparks creativity and encourages imagination. CIS stresses on the following extra-curricular activities:

- Art
- Music
- Dance
- Tennis
- Swimming

PAVING THE WAY FOR A BETTER FUTURE

CIS is a path breaker in the pursuit of excellence. Its attempt of assimilating quality academics with sporting talent is praiseworthy. Furthermore, it intends to 'enable excellence through harmony' and prepare the ground for the future of the world.

A photograph of a basketball on a wooden gym floor. The basketball is in sharp focus in the foreground, while the background is a blurred crowd of people, likely spectators at a sports event. The text is overlaid on the left side of the image.

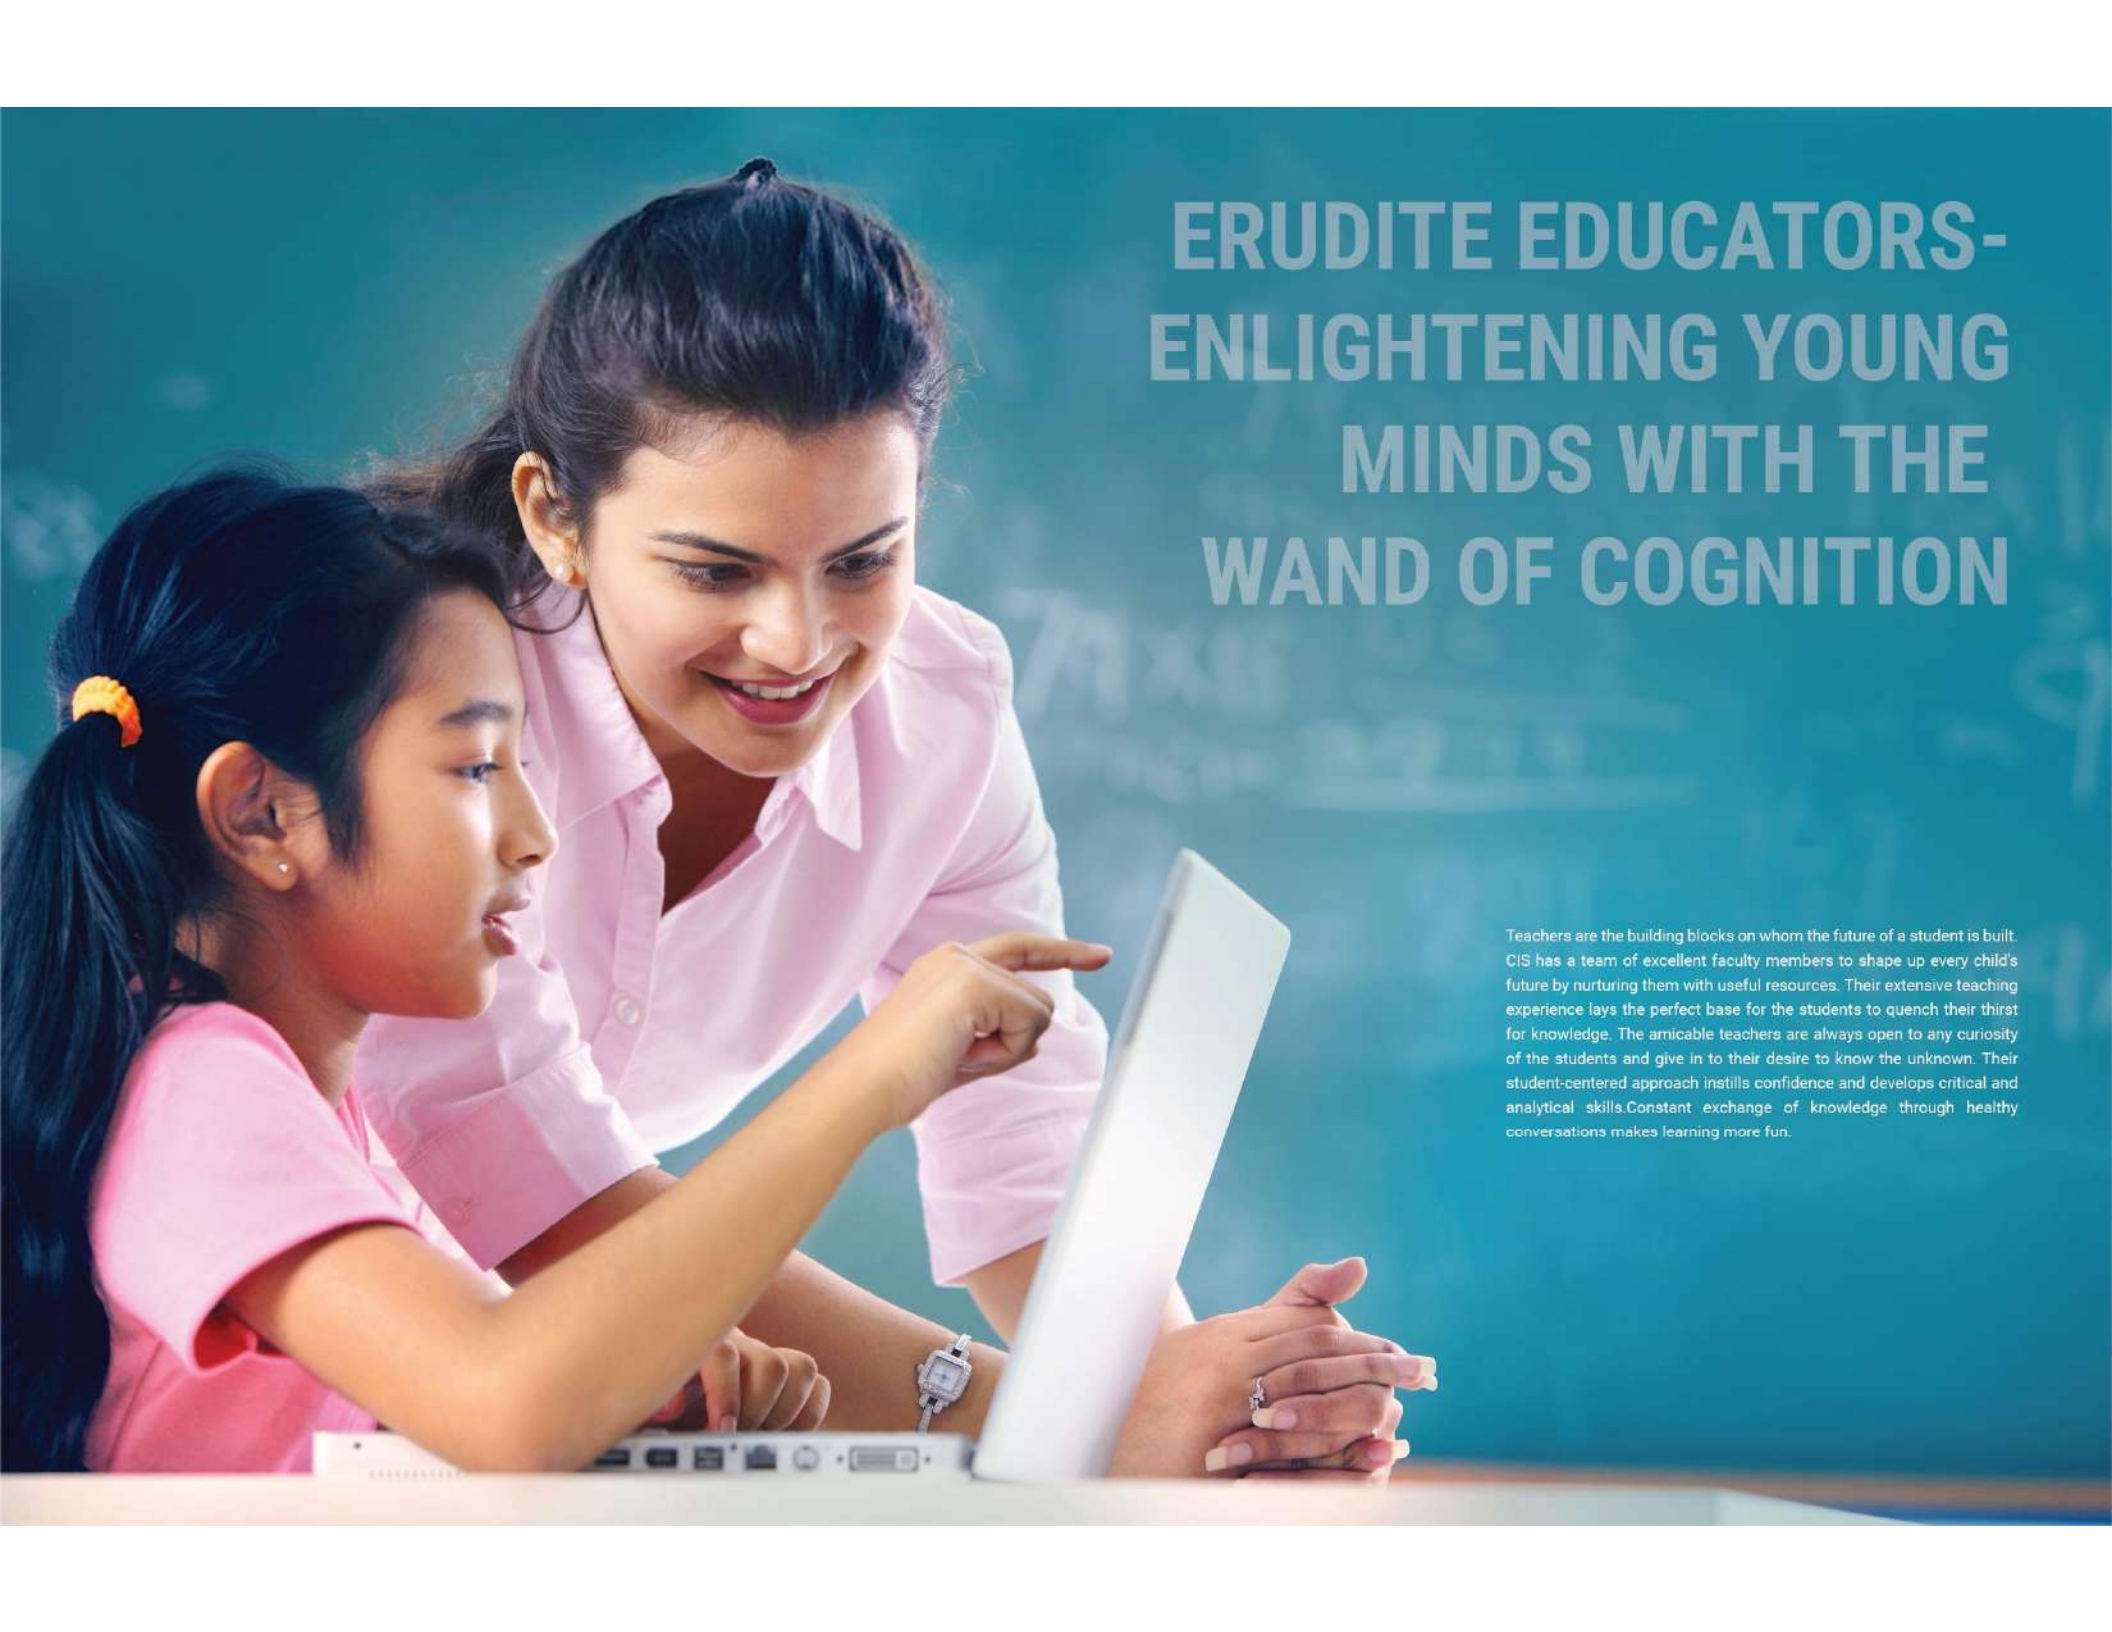

ALL WORK AND NO PLAY MAKES JACK A DULL BOY

Keeping this proverb in mind, CIS provides the students with ample opportunities for outdoor activities. Various hobby clubs as per interest and aptitude, inter-class and inter-school competitions, annual sports, cultural programs and social awareness campaigns keep the students high-spirited and energetic. These activities break the monotony of exams and classroom lessons and give students a reason to be regular at school.

We take pride in possessing a proper synergy among our students, parents and the teaching staffs. As school is the second home for a child, a healthy bond between parents and teachers play a pivotal role in improving his performance. The teachers at CIS are in regular interaction with the parents, keeping them updated about their child's progress and advocating them in every step as they make their way through the educational structure. Our proactive teachers always encourage inquisitiveness among the children and let them disclose thoughts freely.

**THE PERFECT UNISON
BETWEEN PARENTS,
STUDENTS AND
TEACHERS**

A photograph of a female teacher and a young female student in a classroom. The teacher, wearing a pink shirt, is leaning over the student, pointing at a laptop screen. The student, also in a pink shirt, is looking at the screen with interest. The background is a green chalkboard with some faint writing. The overall tone is educational and positive.

ERUDITE EDUCATORS- ENLIGHTENING YOUNG MINDS WITH THE WAND OF COGNITION

Teachers are the building blocks on whom the future of a student is built. CIS has a team of excellent faculty members to shape up every child's future by nurturing them with useful resources. Their extensive teaching experience lays the perfect base for the students to quench their thirst for knowledge. The amicable teachers are always open to any curiosity of the students and give in to their desire to know the unknown. Their student-centered approach instills confidence and develops critical and analytical skills. Constant exchange of knowledge through healthy conversations makes learning more fun.

EMBRACING CHALLENGES TO LAY THE GROUNDWORK FOR GLOBAL PRESENCE

The rising trend of globalization makes it essential to sustain in the ever-changing environment by building strong fundamentals in primary life. The shift to the unknown calls for an action with the inherent knowledge. Research shows that students perform better when life gives them the opportunity to relate pursuits to school education. Competence and Confidence are the two lights that guide our students to succeed in the competitive world.

Maths, English, Science and Social Science- a square of progress

CIS believes that there are certain basic lessons which help a child to grow up and see the world from a different perspective.

Arithmetic calculations enhance the problem-solving skills of the students. They get better in thinking analytically and also develop commendable reasoning abilities.

English, one of the frequently used global languages, helps students to broaden their prospect from professional openings to communicating with people all over the world.

Science surrounds us everywhere, every time, it's barely impossible to ignore the boon of science in our lives. Science education engages the learners with interesting facts and experiments and motivates them to think out-of-the-box.

Social Science deals with the nuances of society and its inhabitants, cultures, social strata and other circumstances. The inclusion of this subject in the curriculum helps students to be aware of the environment, understand the societal norms and get a comprehensive notion about the interrelationship between human beings and nature.

TECHNOLOGY-DRIVEN APPROACH TOWARDS ADVANCEMENT

In this modern era, technology has become the prime aspect of school learning.

Well-equipped computer labs with uninterrupted internet connection and the most upgraded software enable our students to acquire multi-tasking skills. Smart classrooms have made way for improved understanding and smooth dissemination of knowledge. Assimilation of technology with traditional learning methods is an integral part to match up with the happenings of the real world.

With technology-centric education, students get information at fingertips and their curiosity can be fed with the strong diet of evidence without any limitation. It has enhanced the student-teacher relationship by making learning more fun.

ACCOMMODATION AND TRANSPORTATION- ENTRUSTED WITH ALL- INCLUSIVE AMENITIES

COLOURFUL BONANZA FOR AESTHETIC IMPROVEMENT

- Well-equipped computer lab
- Music, art and dance rooms
- Tennis lawn
- Swimming pool
- Athletic ground
- Language labs

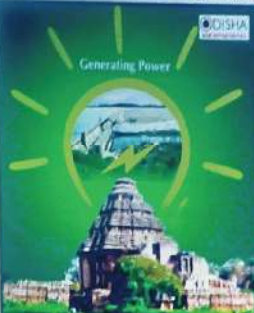

Travel without Hassle

When your kids are at CIS, you don't need to worry about pick or drop. Safe mode of transportation with well-trained drivers makes daily travelling easy for the students. There are pool cars and buses with GPS tracking system to ensure security of the students.

SCIENCE CAMP - 2017

Sponsored by ODISHA HYDRO POWER CORPORATION LTD.

- Gold Rated State PSU status for its consistent performance.
- One of the major success story in the Odisha Power Sector History.
- Providing cheapest power to the Odisha Grid.
- Catering to more than 25% of Odisha's energy requirement.
- Consistently contributing to the State Exchequer.
- Contributing immensely for keeping Power Tariff low in Odisha.
- Contributing Peaking support upto 1850 MW which is more than 50% of State demand during peak period.
- Keeping the Environment Clean, Green & Sustainable.
- Contributing in the field of Education, Health, Livelihood and Infrastructure Development in the remote and tribal dominated.

Creating a Niche

ODISHA HYDRO

100%

RENEWABLE

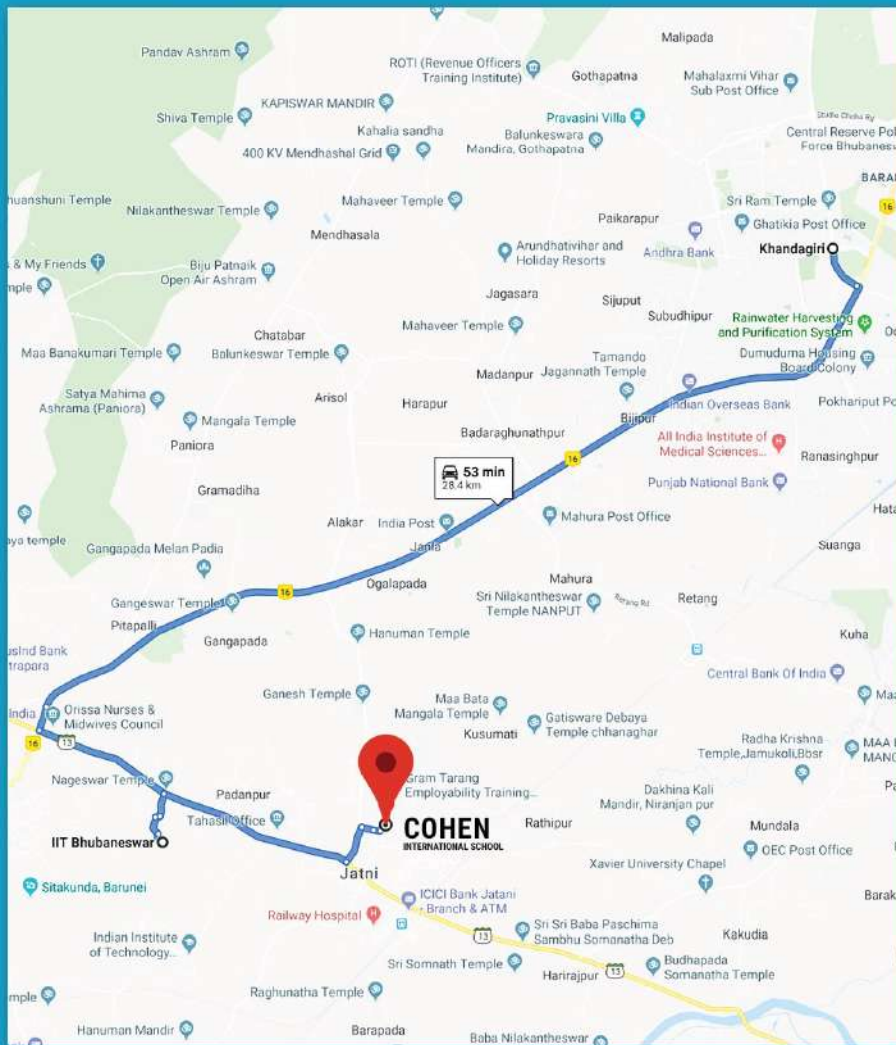

ENERGY

SCIENCE MOVEMENT

Science Movement enables CIS students to get acquainted with the fundamentals through interactive sessions, lectures and activities. It is organized by Subhadra Charitable Trust with the aim of inculcating basic science lesson to students by providing the right learning opportunity. Initiatives such as Science Movement aim to provide a widespread setting for scholars to contribute to basics of learning by reaching out to students, enabling them to understand the nation's ground reality better and contributing towards igniting young minds.

According to Mr. Jyoti Ranjan Tripathy, Convener, Science Movement, there is declining interest among students to pursue research as a career, which can be attributed primarily due to lack of awareness about career opportunities and nature of work involved. Pragmatic, 'hands on' educational approach followed in Science Movement camps, seeking to stimulate the participants at solving real-world problems, constitute an essential build-up exercise for students to push their limits beyond the confines of teaching and get them interested in pursuing career in science.
